

# Corporate Responsibility Policy

L2 are an independent consultancy providing management advisory services, regulatory advisory services and decommissioning & waste management consultancy to the nuclear industry.

We are fully committed to the principles of sustainable development. We will continue to develop our brand value, which is underpinned with our values of: Safety is our first priority; Respect for individuals; Protection of the environment; Excellence in project delivery; Social responsibility; and Personal integrity and accountability.

We believe that a responsible business is a sound basis on which to build on the efficient, safe delivery of our services. We will do this in consultation with our people, stakeholders and will adopt ethical business practices.

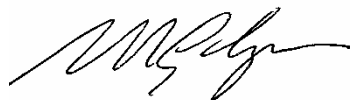

Our business is founded on the expertise and commitment of our people and the trust of our stakeholders. Corporate Responsibility (CR) represents a commitment by L2 Business Consulting to behave in a sustainable, safe and responsible manner towards:

- Regulatory Compliance;
- Environment;
- People (including equal opportunities for all);
- Communities;
- Economic Contribution.

We are committed to understanding and continually improving our performance. We will therefore establish principles underpinning each of our commitments and measure our performance against these. The L2 Business Consulting Board of Directors will review and report our performance on an annual basis. This will be communicated to all stakeholders via a suitable transparent reporting mechanism.

Corporate Responsibility is underpinned by effective corporate governance, an assurance of legal compliance and operation of an Integrated Management System (IMS) to recognisable and auditable standards.

This Corporate Responsibility Policy will be reviewed on an on-going basis by the Board of Directors to ensure that it remains appropriate to our activities and shall apply to all activities we undertake. It shall be communicated and apply to all personnel, suppliers and stakeholders.
